Install Parallels Tools

- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition
- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Standard Edition

This article explains how to install Parallels Tools in Windows virtual machines.

To install Parallels Tools in Ubuntu virtual machines, see KB 113394.

---

1. Start your virtual machine.
2. In Mac menu bar go to **Actions > Install Parallels Tools**.

3. Click **Continue** on the pop-up message to mount an installation image to Windows:

4. Click on Windows DVD drive pop-up and then select **Install Parallels Tools**:

5. Click **Yes** in the User Account Control dialog box:

6. Installation will now start and you will see the progress bar:

7. When installation is finished, restart your virtual machine.

If Parallels Tools failed to install, please refer to KB 111730
