

How to Copy and Paste text and images with Parallels Access?

- Parallels Access

How to Copy and Paste text and images?

To Copy and Paste with Parallels Access follow the same steps as on a native PC:

- Select text by moving your finger along the text and
- Emulate Right Mouse click using either double tap or on-screen toolbar and then select Copy action.

The same applies to Paste operation - emulate Right Mouse click and select Paste operation.

To learn how to use Mouse click, please see [KB116729](#)
