

Activate middle mouse click in Parallels Desktop

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Pro Edition

To activate it:

1. Go to the **Parallels Desktop** menu > **Preferences**

2. Switch to the **Shortcuts** tab > **Mouse Shortcuts**
3. Enable **Middle click**

If you need to use Command+left-click in Mac OS X Virtual Machine for selecting multiple items you may want to disable Middle mouse click or change its shortcut.
