|| Parallels[®]

How to uninstall Parallels Access from either Mac or Windows

- Parallels Access
- Parallels Access for Business

Resolution

To remove Parallels Access from your Mac or Windows PC you will need to uninstall the Parallels Access Agent:

On a Mac:

- Open Finder -> Applications
- Find Parallels Access on the list and drag-and-drop it to Trash

On Windows:

• Right click on Start menu and select Apps and Features

• Find Parallels Access on the list, click on it and select Uninstall
