How to reinstall Parallels Tools in Windows

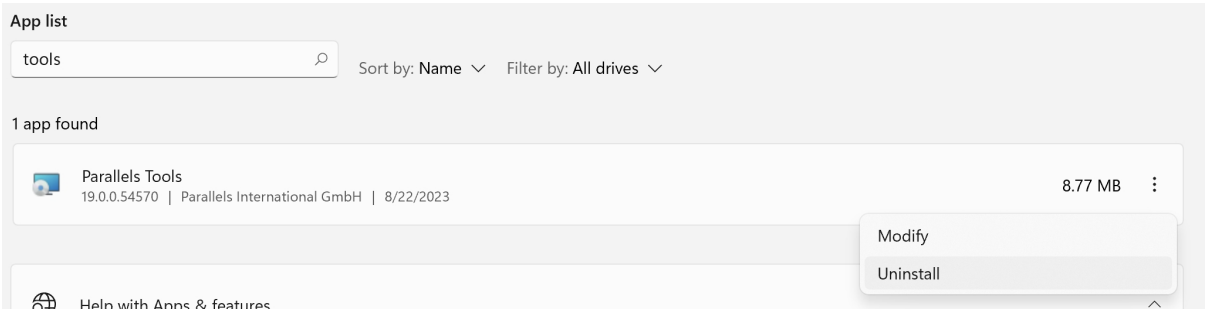

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Business Edition
- Parallels Desktop for Mac Pro Edition

To reinstall Parallels Tools with Parallels Desktop

1. Click **Actions** button at the top **Mac** menu. If your **Windows** is running in Full-screen mode and there's no **Mac** menu, put the cursor at the very screen top and leave it there for a while, or press **Option+Ctrl**.
2. Select **Reinstall Parallels Tools**. If nothing happens open **Windows Explorer** and double-click **Parallels Tools** virtual DVD-drive to start reinstalling.

To reinstall Parallels Tools from inside of Windows

1. Launch **Windows** virtual machine.
2. Disable antivirus software in **Windows**.
3. Click **Start > Settings > Apps > Apps and Features** (or right-click on **Start** button **> Control Panel > Programs and Features**) and **remove Parallels Tools** if present.

4. Proceed with reinstallation.
5. Restart **Windows.**
6. In Mac menu bar, click on **Actions** (**Virtual Machine** in older versions) **> Install Parallels Tools**.
7. Restart **Windows** again.
8. Enable your antivirus.
