

What versions of Parallels Desktop are compatible with OS X Mavericks

- Parallels Desktop for Mac Standard Edition

Information

1. Parallels Desktop 7 for Mac and earlier versions

If you intend to upgrade to the upcoming Mac OS X Mavericks (10.9), please note that Parallels Desktop for Mac version 7 and earlier will not support OS X Mavericks (10.9). You will not be able to launch your Windows Virtual Machine or directly use your files through Parallels Desktop for Mac version 7 and earlier.

To continue using Parallels Desktop for Mac in OS X Mavericks you should buy a full license for Parallels Desktop 10 for Mac: <http://www.parallels.com/store/>

2. Parallels Desktop 8 for Mac

The latest update of Parallels Desktop 8 for Mac does support OS X Mavericks (excluding OS X 10.9.5) and is available to address the majority OS X Mavericks compatibility issues. There are some known issues such as USB devices assignment, limited multiple displays support.

Please make sure that you have the latest update by downloading it [here](#).

3. Parallels Desktop 9 for Mac

Full OS X Mavericks feature set support in Parallels Desktop 9 for Mac.

4. Parallels Desktop 10 for Mac

Full OS X Mavericks feature set support in Parallels Desktop 10 for Mac.
