

How to delete a computer from Parallels Access?

- Parallels Access
- Parallels Access for Business

Symptoms

I would like to delete one of the computers from my Parallels Access, as I do not need to connect to it anymore.

Solution

- 1. On the computer, you want to remove, open the Parallels Access agent by clicking the Parallels Access icon in the menu bar (Mac) or taskbar (Windows) and select **Turn Off Access**.
 - ♦ Mac

♦ Windows

- 2. Go to http://access.parallels.com/ and sign in to your account if necessary.
- 3. Click on **Remote computers** and locate the computer you would like to remove.

6. Then confirm the removal by clicking the check mark button. The unnecessary computer will not be displayed in Parallels Access anymore. You may also wish to uninstall the Parallels Access agent on the computer you removed. Please check KB 11714 or details. © 2024 Parallels International GmbH. All rights reserved.
