How can I apply the VAT ID to my online purchase of Parallels Desktop?

- Parallels Desktop for Mac Standard Edition

Symptoms

I have a VAT ID which I need to use for my online purchase of Parallels Desktop for Mac.

Resolution

Add the license you need to the shopping cart.

On the right side of the page you will need to enter your billing details.

The VAT ID field is not on the page by default, but it will appear if you do the following:

- check the check box called **Purchasing for a company?**
- select your country from the list on the same page.

The VAT ID number is only applicable to business customers within the European Union.
