- Parallels Remote Application Server 18.0
- Parallels Remote Application Server 18.1
- Parallels Remote Application Server 18.2
- Parallels Remote Application Server 19.0

Symptoms

Parallels RDP Client shows an error while connecting:

Cause

This error usually indicates a problem with RDS licenses CALs.

Resolution

1. Verify RDS servers are pointing to your RDS license server
2. Verify that the license server has a sufficient number of CALs for clients requiring remote connections.
