

How-to publish Java Web Start Application

- Parallels Remote Application Server

Information

To publish **Java Web Start Application**, please perform the steps bellow:

1. Install Java on your **Terminal Server**.
2. Publish **javaws.exe** (by default it is located in **C:\Program Files (x86)\Java\jre1.8.0_73\bin**)
3. In **File Extensions** tab add association to **.jnlp**
4. Publish browser with link to **Java Web Start Application** in **Parameters** field.

Note: If you are using **Internet Explorer** please check security options.
