

Default printer in Windows is always changing to the last one that was used for printing.

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

Symptoms

Windows default printer always changes to the one that was used lastly.

Cause

"Let Windows manage my default printer" option turned on in Windows.

Resolution

1. Open **Windows Start menu > Settings**:
1. Open **Devices menu**:
2. Open **Printers & scanners** and TURN OFF "**Let Windows manage my default printer**" option:
