How do I turn on Parallels Toolbox utilities from Parallels Desktop for Mac?

- Parallels Toolbox
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Business Edition

Parallels Toolbox for Mac

To install Parallels Toolbox for Mac after installing Parallels Desktop for Mac, follow the steps below:

1. Click on the **Parallels logo** in the menu bar and select **Preferences** in the drop-down menu.

2. Switch to the **Toolbox** tab. Click **Install** and wait until the download and installation are complete.

See KB 123904 to learn how to use Parallels Toolbox for Mac after installation.

Parallels Toolbox for Windows

Starting from Parallels Desktop 13 for Mac users can install Parallels Toolbox for Windows right from the Parallels Desktop menu:

1. Click on the virtual machine name in the application menu bar, then select **Install Parallels Toolbox for Windows**.

2. Click **Install Now** and wait until the download and installation are complete.

See KB 124183 to learn how to use Parallels Toolbox for Windows after installation.
