

## **[4356] - The connection was ended because of a network error.**

- Parallels Remote Application Server

## **Symptoms**

Starting a Published Application you get the error message:

Connecting to Terminal Server in Native RDP Client (**mstsc**) causes the error message to appear:

## **Cause**

RDP Port is used by another application.

## **Resolution**

To figure out which application listening to RDP port (by default 3389) execute the following command:

```
netstat -abno | find "%RDPPortNumber%"
```

You may check port RDP port number in registry entry:

```
HKLM\SYSTEM\CurrentControlSet\Control\TerminalServer\WinStations\RDP-Tcp\PortNumber
```
