

Unable to install Netboot component - checkbox is greyed out

- Parallels Device Management

Symptoms

You can't install the **NetBoot** component, its checkbox is greyed out. All installation requirements are met. `pma_install.log` has the following records:

Resolution

Verify that below keys are present in system registry:

```
HKLM\SOFTWARE\Microsoft\SMS\Operations Management\SMS Server Role\SMS Distribution Point
```

```
HKLM\SOFTWARE\Microsoft\SMS\DP\IsPXE
```

IsPXE value should be set to **1**.
