Unable to print from Quicken

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Business Edition

Symptoms

I cannot print from Quicken, however printing works fine in Microsoft Office and NotePad.

Cause

Quicken misconfiguration.

Resolution

1. Reset the Mac printing system by clicking on **Apple logo > System Preferences > Printers & Scanners >** right click your printer and choose **Reset printing system...**.

2. Unplug and plug the printer back to your Mac, make sure it is turned on.
3. Add your printer to **Printers & Scanners** by clicking on "**+**" button and choose your printer.
4. Run Quicken > go to **File** menu > select **Printer Setup > For checks, reports or Invoices**.
5. In the opened window choose your printer > click **Apply > OK**.
