Getting started with Parallels Toolbox for Windows

- Parallels Toolbox
- Parallels Toolbox Business Edition

Parallels Toolbox is a collection of convenient, easy-to-use, lightweight applications—or tools—to help you focus, get things done, and stay secure. It provides quick access to many common functions that are either hidden, require hard-to-remember keyboard shortcuts or are just not available.

Visit KB 124200 to see the list of available tools.

Installation

To install Parallels Toolbox for Windows, download it, double-click the installation file (.exe), and follow the onscreen instructions.

Activation

Once Parallels Toolbox is installed and started, sign-in to your Parallels account or create a new one.

After that, do one of the following:

- If you want to try Parallels Toolbox, click **Try Free for 7 Days**.
- If you have an activation key, click **I Have a Key** and follow the onscreen instructions.
- If you want to purchase Parallels Toolbox, click **Buy** and follow the onscreen instructions.

Using Parallels Toolbox

1. To learn more about a particular tool, move the pointer over the tool, right-click and select **About**.

   Note: Add any tool to Favorites for easier access by right-clicking and choosing **Add to Favorites**. All tools can be launched from the Windows Start Menu by typing the name in search field.

2. To enable a tool, simply click on its icon.

   The enabled tools are marked with a white circle:

For more details on Parallels Toolbox features refer to the Parallels Toolbox for Windows User's Guide.
