

How to see processes, sessions and published resources on a particular RD Session Host

- Parallels Remote Application Server 19.1
- Parallels Remote Application Server 18.3
- Parallels Remote Application Server 19.0

Information

In order to check running processes/sessions/published resources on a specific RD Session Host, follow these steps:

1. Open **Remote Application Server Console**.
2. Go to **Farm > RD Session Hosts** > right-click on the required server > select an appropriate **context menu** option.
