

Parallels Mac Management client modifies com.apple.SoftwareUpdate.plist

- Parallels Mac Management 6.1
- Parallels Device Management

Symptoms

Parallels Mac Management client modifies **com.apple.SoftwareUpdate.plist**

Cause

Parallels Mac Management always resets URL of update server in **com.apple.SoftwareUpdate.plist** on the startup.

Resolution

On the Mac execute:

```
sudo /usr/libexec/PlistBuddy -c "Delete :SuCatalogMode"
```

```
sudo /usr/libexec/PlistBuddy -c "Add :SuCatalogMode integer -1" "/Library/Preferences/com.parallels.pma"
```
