

Tiger application does not locate network adapters in Windows virtual machine

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

Symptoms

Tiger (CATIA V5 Student Edition Target ID Generator) application does not show any network adapters which is required to generate a license key for CATIA v5.

Cause

Tiger application generates the license key by scanning MAC Address from a computer's internal network card.

Resolution

According to the official DS License Server documentation from CATIA website, virtual machines are not supported, therefore It is not possible to either run or install the DS License and use Tiger in Parallels Desktop virtualized environment.
