

Apple updates aren't synchronized with SCCM

- Parallels Device Management

Symptoms

Apple updates aren't synchronized with SCCM.

However, there are no errors in **wsus_publisher.log**

Cause

Updates category isn't enabled in **Software updates classifications**:

Resolution

Please enable **Updates** category in Software update **Classifications**.

1. Go to **SCCM Console** **Administration** **Site configuration** **Sites** and select the primary site;
2. On the Home tab click **Settings** **Configure Site Components** **Software Update Point**:

3. Go to **Classifications** tab, enable **Updates** category and click OK:

4. Go to **Software Library** → **Software Updates** → **All Software Updates** and click **Synchronize Software Updates**:

5. Click **Yes** in the pop up window and wait for the synchronization to complete.

You may monitor its status in **SCCM Console** **Monitoring** **Overview** **System Status** **Component Status**
