

3D application support in Windows with Parallels Desktop for Chrome OS Enterprise and Education Edition

- Parallels Desktop for Chrome OS Enterprise and Education Edition

Question

I want to run a 3D application in Windows with Parallels Desktop for Chrome OS Enterprise and Education Edition. Is it possible?

Answer

As of now, Parallels Desktop for Chrome OS Enterprise and Education Edition does not support 3D acceleration (DirectX, OpenGL), however we plan to implement it in the future. Click **Get updates** above to subscribe to this article and receive updates.
