

Share applications from Windows virtual machine to macOS

- Parallels Desktop for Mac Business Edition
- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Pro Edition

If you want to share your applications between Windows virtual machine and macOS, follow the guideline below.

1. Open your Windows virtual machine's configuration.
2. Follow to the **Options** tab > **Applications**.
3. Tick the box **Share Windows applications with Mac**.

Now you can open your files in macOS using applications from Windows virtual machine.

Also, check how to use applications from Windows virtual machine as default applications in macOS - [KB 122949](#)
