

<u>Use Forex Tester 6 in Windows running on a Mac with Apple silicon</u>

- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Business Edition
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Standard Edition

We know that many Parallels Desktop customers want to install and run Forex Tester 6 in Windows virtual machines (VMs). Even though the app can be installed with default settings it won't launch when clicking on its executable file: nothing happens upon trying to start the app.

Resolution

To start the Forex Tester application, you need to adjust the compatibility settings of the app:

1. Click on the Windows Start icon > Right-click on the **Forex Tester 6** icon > Open File Location.
