BSOD during Windows XP Guest OS installation.

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop

Symptoms

During Windows XP Guest OS installation from CD you may receive the following error (BSOD):

```
SESSION3_INITIALIZATION_FAILED

Technical information:

0x0000006F (0xC0000020, 0x00000000, 0x00000000, 0x00000000)
```

Resolution

Please create ISO image from Windows XP installation CD and try to install Guest OS from this ISO image as described in the Parallels Desktop for Mac User Guide
- https://www.parallels.com/en/download/file/doc/Parallels_Desktop_for_Mac_User_Guide.pdf, pages 73-74, step 11 - specify created ISO image as the source to install WIndows XP from.
