

ERROR: The Boot Camp hard disk has been successfully configured, but an unexpected error occurred when mounting the selected Boot Camp partitions back to your Mac.

- Parallels Desktop
- Parallels Desktop for Mac Standard Edition

Symptoms

Parallels Desktop displays the following error:

```
The Boot Camp hard disk has been successfully configured, but an unexpected error occurred when mounting the selected Boot Camp partitions back to your Mac.
```

Resolution

Please go to Finder - Applications - Utilities folder and locate DiskUtility.app.

Launch DiskUtility, right-click on your Boot Camp partition and choose 'Mount'
