"Failed to initialize properly (0xc0150002)" error message when starting an application

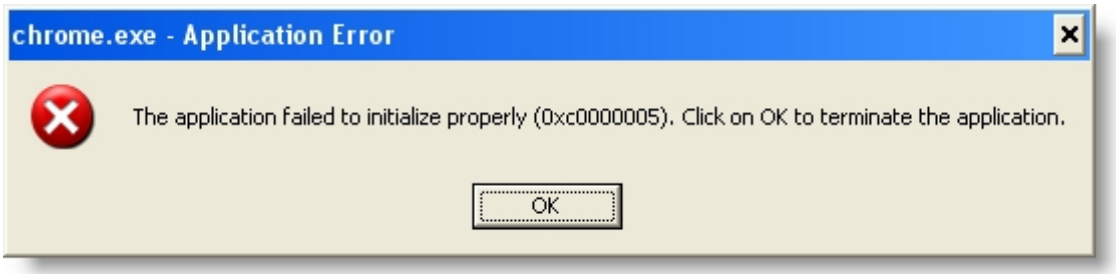

- Parallels Desktop
- Parallels Desktop for Mac Standard Edition

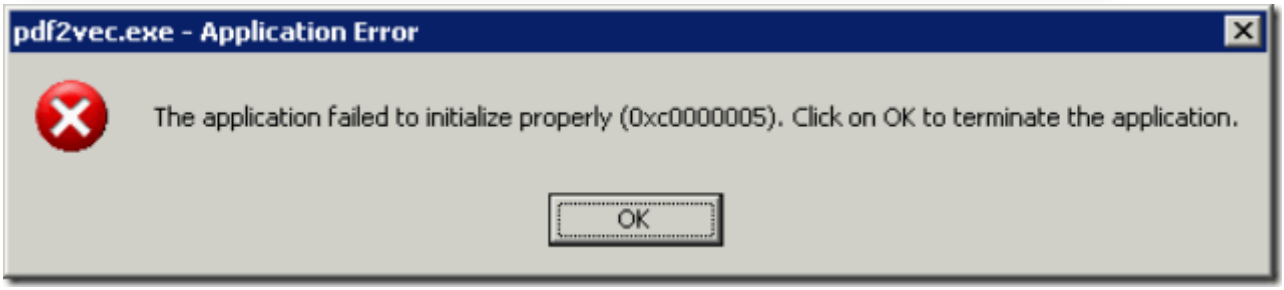

Symptoms

When starting some Windows application you get the following error message:

```
"Failed to initialize properly (0xc0150002)"
```

This may happen to different applications:

Cause

These error messages can occur if drivers or application has been incorrectly installed.

Resolution

In order to fix this issue we suggest you to **reinstall the application**.

For more information you may refer to the Microsoft KB article: **Error message: "The application failed to initialize properly"**
