How to get to your virtual machine's configuration

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

This article will explain how to access your virtual machine's (VM) configuration.

VM is not running:

1. Start Parallels Desktop
2. Click on the Parallels icon on the Mac menu bar and choose **Control Center**.

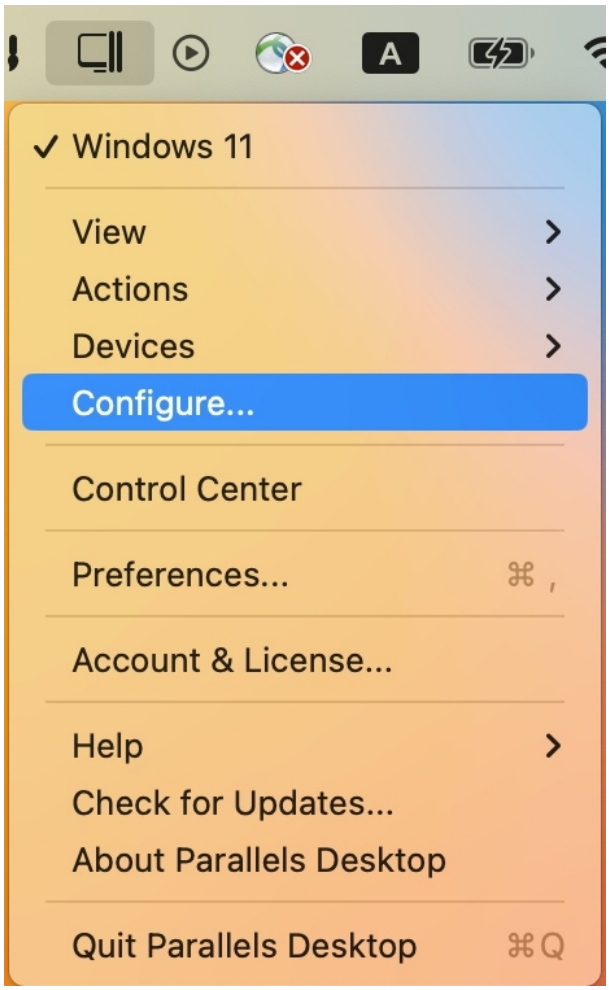

3. Click on the cogwheel.

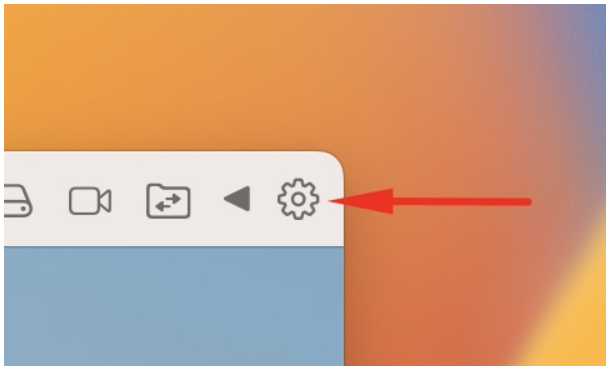

VM is in Windowed mode (running or not):

1. Click on the Parallels icon on the Mac menu bar and choose **Configure** under your virtual machine section.

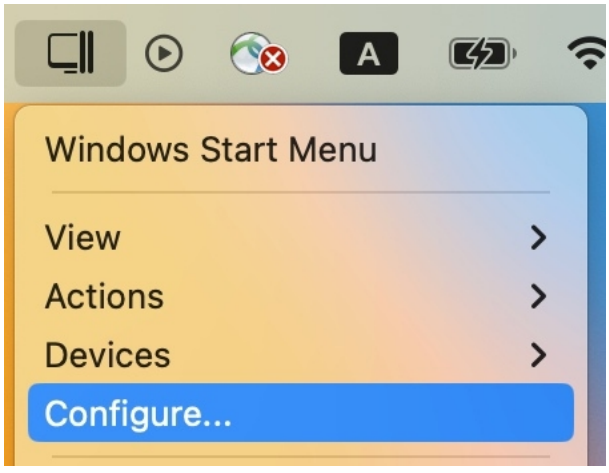

2. OR Click on the cogwheel in the top right corner of the virtual machine's window.

VM is running in Coherence/Window mode:

1. Click on the Parallels icon on the Mac menu bar and choose **Configure**.
