

Incorrect mouse behaviour in AutoCAD

- Parallels Desktop
- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Standard Edition 9 and older
- Parallels Desktop for Mac Standard Edition 10
- Parallels Access

Symptoms

Incorrect mouse behavior in AutoCAD application:

- Mouse is too fast.
- Mouse is sluggish.

Cause

Virtual machine misconfiguration.

Resolution

- 1. Open your virtual machine's configuration.
- 2. Switch to Hardware tab > Keyboard and Mouse > SmartMouse > Optimize for Games

Note: In case you are using Parallels Desktop 7 or 8 please switch to Options tab instead of Hardware > Go to **Advanced** > **SmartMouse** > set **SmartMouse** option to **On**.
