

## **How to add more remote computers to Parallels Access subscription**

- Parallels Access

### **Information**

One Parallels Access subscription (paid, free or trial) allows connecting to 5 remote computers.

To add more remote computers to connect to, follow the instructions below depending on how your Parallels Access subscription has been purchased.

### **Parallels Access subscription purchased from Parallels website/MyAccount**

To add more remote computers to the subscription:

1. Login to your [account](#).
2. On your Dashboard select **Active Subscriptions** from the **Parallels Access** menu.

3. Click on your Parallels Access subscription and then click **Buy More Licenses** button.

4. After selecting the new required number of licenses click **Pay & Upgrade** button, then proceed to checkout.

## **Parallels Access subscription received with Parallels Desktop subscription**

To add more remote computers to the Parallels Access subscription which comes with Parallels Desktop subscription, you need to upgrade the whole subscription.

1. Login to your [account](#).
2. On your **Dashboard** select **Active Subscriptions** from the **Parallels Access** menu.
3. From the list of subscriptions click your Parallels Desktop subscription.
4. Click Buy More Licenses button, select the required number of licenses (each license allowing you to connect to up to 5 remote computers) and then proceed to checkout.

## Parallels Access subscription received with Parallels Desktop perpetual license

For complementary Parallels Access subscriptions received with Parallels Desktop perpetual licenses, to add more remote computers to the Parallels Access subscription you need to enable Auto-Renewal first.

1. Login to your account.
2. On your Dashboard select **Active Subscriptions** from the **Parallels Access** menu.

3. Select your Parallels Access subscription from the list.
4. Click **Enable Auto Renewal** button.

5. Select the required duration of the resulting subscription and click **Proceed To Checkout** button.

6. Once Auto Renewal is enabled, follow the instructions from the [section](#) above to add more remote computers.

## **Parallels Access subscription purchased via App Store**

This functionality is yet to be implemented for Parallels Access subscriptions purchased via App Store. Please subscribe to this article to get an update once it's implemented.

## **Removing unnecessary remote computers from Parallels Access**

Alternatively, you can [delete](#) one of the already registered computers from the list to add a new one.
