

Fix "Parallels Desktop cannot be started because some of the required components are missing from the operating system of your Mac."

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac App Store Edition
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

When you start Parallels Desktop, the following notification appears:

Parallels Desktop cannot be started because some of the required components are missing from the operating system of your Mac.

Cause

1. Unsupported macOS version.
2. Some essential macOS system utilities are missing or inaccessible.

Resolution

Note: This notification may appear if you are running older versions of Parallels Desktop on macOS Ventura 13. Visit the [KB 128970](#) to find out more about Parallels Desktop and macOS Ventura 13 compatibility.

Install the latest Parallels Desktop for Mac product version by clicking [here](#).
