

Product activation failed due to license violation

- Parallels Remote Application Server 14.0

Symptoms

Activation of the Parallels Remote Application Server fails with the following error message:

Product activation failed due to license violation

Cause

According to the Terms of Service, Parallels Remote Application Server can't be installed on multiple servers.

Resolution

If the above error occurs, please contact [the Sales team](#) with your license key. The Sales team will be able to reset it.
