

## <u>Printer's specific features in Parallels Remote Application</u> <u>Server</u>

- Parallels Remote Application Server 19.1
- Parallels Remote Application Server 18.3
- Parallels Remote Application Server 18.0
- Parallels Remote Application Server 18.1
- Parallels Remote Application Server 18.2
- Parallels Remote Application Server 19.0

## Question

Can I use all the specific features of my printer in Parallels Remote Application Server?

## **Answer**

1. At Parallels Client go to **Connection Properties > Printing** tab **> Options >** select **Use client preferences for all printers** 

Re-login to Farm and launch the application. A local printer preferences dialog will open when you clic application. The dialog will contain a full set of options for a particular printer that you have installed cal computer including paper size setting, color/duplex printing, etc.	ck Print in on your
