

How to reset Parallels Desktop warnings

- Parallels Desktop
- Parallels Desktop for Mac Standard Edition
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

Question

I want to reset the settings for all pop-ups that appears in Parallels Desktop such as 'Where do I want to connect device (Mac or Windows)', 'Are you sure that you want to stop "virtual machine"?', etc.

Resolution

Starting from Parallels Desktop 11 and above:

- Go to **Parallels Desktop > Preferences > switch to Advanced tab > Reset warnings.**

In Parallels Desktop 10:

- Go to **Parallels Desktop > Preferences > switch to Advanced tab > Reset Hidden Messages.**
