

Unable to create NetBoot image. Error 1314

- Parallels Device Management

Symptoms

I cannot add and OS X image into Parallels Mac management by converting an *.nbi* file to *.wim*

```
Error: Failed to capture image from C:\Users\smsadmin\Desktop\netboot. Error = 1314
```

Cause

Current account doesn't have sufficient permissions.

Resolution

Run **SCCM Console** as administrator and recreate **NetBoot** image.
