

How to download Parallels Client

- Parallels Remote Application Server

It is possible to use a separate page to download Parallels Client only

1. Follow the link: [Download All Parallels RAS components](#)
2. Pick the right version from a drop-down menu:

3. Download an appropriate Client.

4. It is also possible to use the download page link with a specific pre-selected version. Example:
<https://www.parallels.com/products/ras/download/client/#ras-v18#ClientInstallationFile>
