

Windows Taskbar is placed under Mac menubar in Coherence

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop

Symptoms

Windows Taskbar is placed under Mac menubar when the Virtual Machine is running in Coherence view mode.

"Show Windows Taskbar" option is enabled in Coherence.

Resolution

1. Exit Coherence mode
2. Move Windows Taskbar to the left, right or bottom side of the Virtual Machine screen
3. Switch back to Coherence view mode.
