

The Start menu in Windows 10 virtual machine appears in full screen

- Parallels Desktop for Mac Standard Edition
- Parallels Desktop
- Parallels Desktop for Mac Pro Edition
- Parallels Desktop for Mac Business Edition

Symptoms

After clicking on the Start menu it occupies the whole screen of a Windows 10 virtual machine in any view mode. Additionally, the Start menu in Coherence may appear in the background.

Cause

Windows misconfiguration.

Resolution

Disable **Use Start full screen** option in Windows settings as described in the [article](#).

Additionally, make sure that Tablet mode isn't enabled in the Windows 10 settings. If it's enabled, disable it as per instructions from the article [Use your PC like a tablet](#).
