

Parallels Toolbox Referral Program

- Parallels Toolbox

Recommend Parallels Toolbox to your friends and get 3 months of Parallels Toolbox for free.

Applicable products

- Parallels Toolbox for Mac and Windows
- Parallels Toolbox Packs

Eligibility

To participate in the program, you must be a current user of Parallels Toolbox and have an active or expired paid or registered trial subscription.

How it works

Click the Toolbox Referral Program command in the Parallels Toolbox **Preferences** menu and share the Referral Program link through email, Facebook, Twitter or other social media. When your friend buys a Parallels Toolbox subscription using your link, you will receive a 3-month Parallels Toolbox subscription.

Note: You will only qualify for a referral award in respect of the first eight users that have been referred to the program.

What you get

- If you have an active Parallels Toolbox subscription, the renewal date will be automatically extended for 3 months.
- If you have an expired paid or registered trial subscription to Parallels Toolbox, you will receive an activation code via email. Visit [KB 124006](#) for activation instructions.
- If you have more than one active Parallels Toolbox subscription in your account, for example there's also a Parallels Desktop for Mac subscription which includes Toolbox, you will receive an email with an activation key. You need to register the key in your Parallels account at my.parallels.com > **Register Key** and select whether you would like to register it as a separate subscription, if you plan to use it on another Mac, or extend one of the existing subscriptions.
