

Enrolling Macs over Internet

- Parallels Device Management

Case

How to enroll Macs over Internet?

Resolution

Install and configure Parallels IBCM Proxy (please refer to [Admin's guide](#) for detailed information).

Once done, install Parallels Mac Client on a Mac and launch it in **System Preferences - Parallels Mac Management**. Then select "**Enroll over the Internet**" option, press "**Continue**", specify SCCM enrollment URL like this: **`https://FQDN-of-your-IBCM-server/ParallelsMacManagement.Enrollment`** and press **Continue**.
