

## **Google Chrome shows warning "Your connection to this site is not fully secure"**

- Parallels Remote Application Server

### **Symptoms**

Google Chrome shows warning "Your connection to this site is not fully secure" on RAS HTML5 Gateway:

### **Cause**

The warning is caused by URL Schema mechanism used by RAS to detect installed Parallels Client:

### **Resolution**

There is no actual security violation in this case, please ignore it or configure HTML5 Gateway to use HTML5 client only:
