

Parallels Client log location

- Parallels Remote Application Server

Query

Where is Parallels Client log stored?

Resolution

Client log location depends on Operating System being used:

Linux: `~/.config/2X/Client/ClientLog.log`

Igel: `/userhome/.config/2X/Client/ClientLog.log`

macOS: `~/Library/Containers/com.2X.Client.Mac/Data/ParallelsClient.log`

Windows: `%AppData%\2XClient\ClientLog.txt`

Android: `/storage/emulated/0/Android/data/com.parallels.client/files/logs/`
