Resolution in Kali Linux 2019.2 on Parallels Desktop 15

- Parallels Desktop for Mac Business Edition 15
- Parallels Desktop for Mac Standard Edition 15
- Parallels Desktop for Mac Pro Edition 15

Information

Resolution issues occur in Kali Linux 2019.2 after installing Parallels Tools in Parallels Desktop 15.

Cause

Incomplete configuration support. Error on starting DRM video

Known solution

1. Start Kali Linux and log into system.

2. Open any terminal emulator (e.g. gnome-terminal)

3. Open **/etc/default/grub** file as root.

4. Locate **GRUB_CMDLINE_LINUX_DEFAULT** variable.

5. Add **prl_tg.usedrm=0** to this variable.

6. Run **update-grub** as root to update grub configuration.

7. Reboot Kali Linux
