

Bookmarks (Direct App Access)

- Parallels Remote Application Server 19.1
- Parallels Remote Application Server 18.3

RAS Direct App Access allows to directly access specific published resource through HTML5 Client by using the direct links with the resource (and theme) ID. More flexible approach for users to access their resources through saved bookmarks or 3rd party portals.

New Parameter:

- <https://FQDN?appid=5>
 - <https://FQDN/Theme1?appid=5>
 - <https://FQDN/RASHTML5Gateway?theme=Theme1&appid=5>
