

Sending key combinations to Windows with Parallels Desktop for Chrome OS Enterprise and Education Edition

- Parallels Desktop for Chrome OS Enterprise and Education Edition

Sometimes, you may need to send various key combinations (such as PrintScreen) to a virtual machine or its applications.

Do the following:

1. Click the Keyboard icon in the top right corner of the virtual machine window.
2. The list of most popular and frequently used key combinations pops down. Click the combination you want to send to Windows.
