

Connecting external devices in Parallels Desktop for Chrome OS Enterprise and Education Edition

- Parallels Desktop for Chrome OS Enterprise and Education Edition

Question

Can I connect external devices to Windows in Parallels Desktop for Chrome OS Enterprise and Education Edition?

Answer

With the release of Parallels Desktop for Chrome OS Enterprise and Education Edition 1.0.3 (2067), some USB devices, such as Smart Card Readers, Android phones or Arduino boards are supported to be connected to Windows.
