

Error 01/0000002F "SAML session is expired"

- Parallels Remote Application Server

Symptoms

Error **01/0000002F** is thrown:

Cause

The user tries to start a published item after the RAS session expiration.

Resolution

Please increase **Cached Session Timeout** value in **RAS Console** **Connection** **Settings**:

This setting defines how longer user's RAS session remains valid - e.g., after SAML logon.
