

Unattended installation and removal of PMM components

- Parallels Device Management

To install silently:

PMM Proxy:

```
Parallels Mac Management for SCCM.exe /install /quiet  
addlocal=FEATURE.CMProxy
```

SCCM Console extension:

```
Parallels Mac Management for SCCM.exe /install /quiet  
addlocal=FEATURE.CMConsoleExt
```

To uninstall silently:

PMM Proxy:

```
Parallels Mac Management for SCCM.exe /modify /quiet remove=FEATURE.CMProxy
```

SCCM Console extension:

```
Parallels Mac Management for SCCM.exe /modify /quiet  
remove=FEATURE.CMConsoleExt
```

NetBoot server:

```
Parallels Mac Management for SCCM.exe /modify /quiet remove=FEATURE.NetBoot
```

Software update point:

```
Parallels Mac Management for SCCM.exe /modify /quiet remove=FEATURE.SUP
```
