

Parallels Remote Application Server 19 Supported Browsers

- Parallels Remote Application Server 19.0

Parallels Remote Application Server 19 Supported Browsers

With the release of Parallels Remote Application Server 19, Internet Explorer is no longer supported for accessing Parallels RAS Management Portal, HTML5 Client and Web authentication components.

Parallels RAS Management Portal, HTML5 Client and Web-authentication can run in any modern web browser supporting HTML5, such as Microsoft Edge (Chromium-based), Google Chrome, Mozilla Firefox, Safari, and similar.
