

Terminology updates in Parallels Remote Application Server 19

- Parallels Remote Application Server 19.0

The following changes in terminology apply to Parallels RAS 19 and beyond:

Old term	New term
Publishing Agent	Connection Broker
Gateway	Secure Gateway
Secure Client Gateway	
VDI Agent	Provider Agent
HTML5 Client	Web Client
HTML5 Client Portal	User Portal
/RASHTML5Gateway	/userportal

If you are using performance monitoring counters, please make sure that the names of the counters are updated to reflect the terminology changes as part of the upgrade planning to Parallels RAS 19.

For example **Parallels RAS Publishing Agent** performance counter name will be updated to **Parallels RAS Connection Broker**.
