

CVE-2022-3602 and CVE-2022-3786 (OpenSSL vulnerabilities)

- Parallels Secure Workspace

Resolution

Parallels Secure Workspace does not make use of any of the affected OpenSSL versions for these CVEs:

- CVE-2022-3602
- CVE-2022-3786

Mind that it's always recommended to keep the appliance(s) up to date to have the latest security fixes installed for any package.
